> The Murder of Mr. Ren. Canady, head engineer of the Mary Alice, took place last Sunday night. When the two desperate negroes attacked him he called for help. The watchman of the boat responded, but was twice knocked down for his interference, and narrowly escaped the fate of the engineer. THE HIGH SCHOOL HOUSE TO BE RE-ROOFED. The roof of the high school building leaks so badly that the school directors have determined upon taking it off and replacing it in a workmanlike manner. It will cost twelve hundred dollars to substitute a first-class roof in place of the present defective one; but the work must be done, cost what it may.

CAPT. HINDE'S NEW WHARPROAT. The skeleton of Capt. C. T. Hinde's new wharfboat, building at Metropolis, is now complete, and permits a reasonable estimate of the immense dimensions of the structure. At a guess the spectator would say that it covers a half acre of ground and he wouldn't be very far out of of the way. The work is being performed in a first class manner, and only the very best and soundest timber is employed, When completed this wharfboat, in point of size, cost and completeness of arranges nent will have no equal on any of the western or southern waters. It is scarcely necessary to add that it will be moored at Cairo. At no other point is there a demand for such a floating mastedon.
